SUPPLEMENT TO REPORT NO.

The Central Committee of the Communist Party of Argentina (CPA) has issued a directive that hereafter the barrio (neighborhood) committees will be responsible for the supervision and direction of all the cells, including the factory cells, within their jurisdiction. The express purpose of this instruction is to consolidate the command so that the barrio committee, in the event of a strike within its area, will not only direct the strike activities of the factory cell, but will also instruct the street cells within its area to render active assistance to the factory cell.

25X1A

Comment. In the past the factory cell, in the event of a strike, apparently encountered difficulty in obtaining the assistance of other neighboring or street cells.
